

Intelligent Insights for Everyone

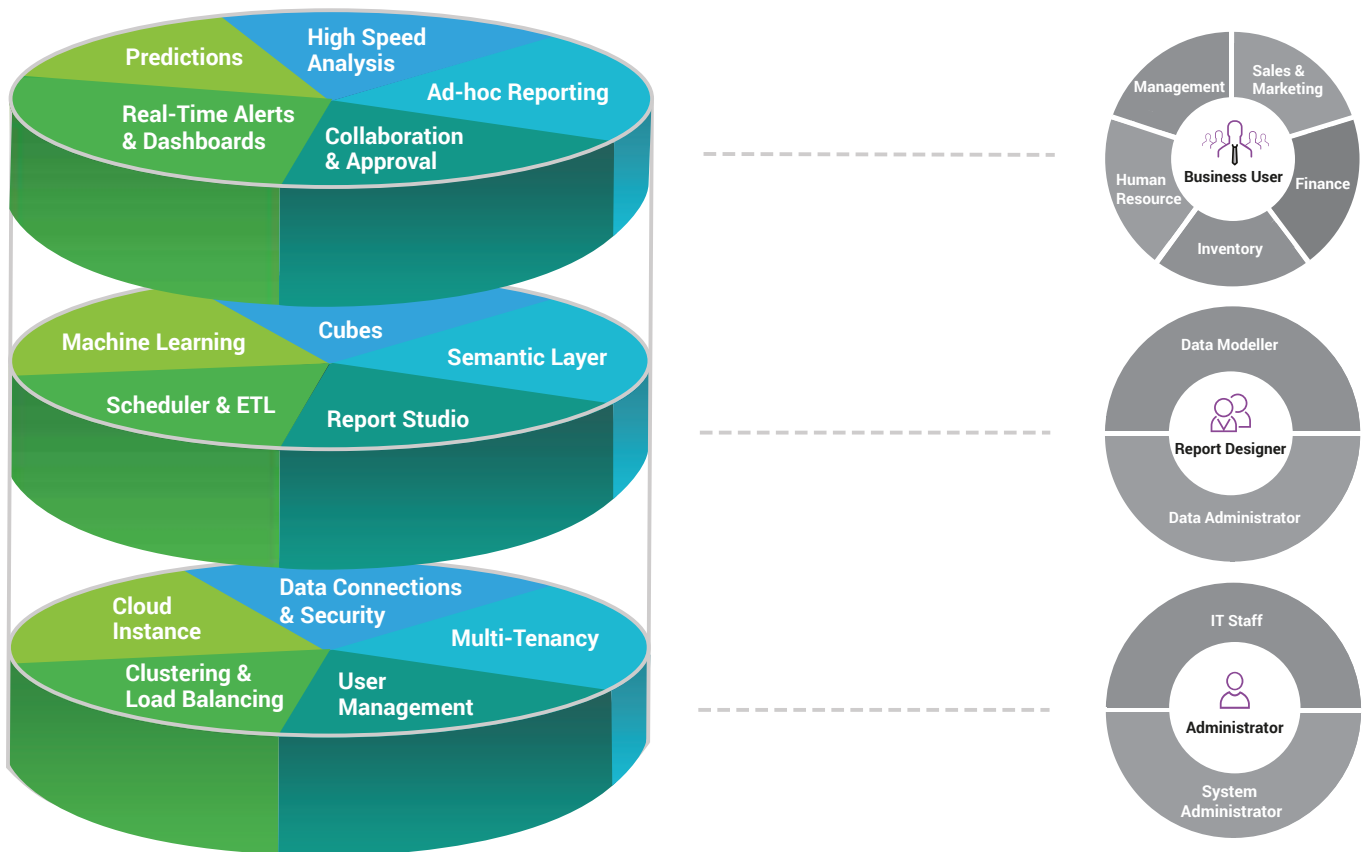

intellicus

A photograph of two men in business attire. The man on the left is a Black man with a beard, wearing a blue blazer and a white shirt, smiling as he looks at a tablet. The man on the right is a white man with glasses and a beard, wearing a dark blue blazer and a light blue shirt, pointing at the tablet. They are standing in front of a large window with a view of a city skyline. The background is slightly blurred, emphasizing the men and their interaction with the technology.

Intellicus is one of the world's leading Business Intelligence and Analytics platform. More than 60% of Fortune 500 companies are using Intellicus to build powerful reports and dashboards with ease.

			
Simple	Secure	Scalable	Self-Serve BI

Future Ready BI We have you covered

Intellicus is packed with features for everyone in the organization, from IT and data administrators to business users to access insights out of data as per their roles and needs.

Future Ready BI – We have you covered.

Intellicus comes with a wide array of features that meet all your BI needs.

Canned Standard Reporting

Design highly formatted, pixel-perfect, printable forms and operational reports. Get contemporary style of web controls like dynamic data grids and various charting options for data depiction.

Self-serve Ad-hoc Reporting

Our intuitive, drag-and-drop UI enables you to customize reports according to your business needs, and derive meaningful insights whenever you need.

High Speed OLAP

Sub-second, multi-dimensional analytics to let you explore all your data in a single screen to give a panoramic view of your business at the speed of your thought.

ETL enabled Metalayer

Join data from multiple systems to bring them into a single report or dashboard. You can extract and transform the data from diverse sources- both modern and traditional for your analytics.

Report Scheduling and Bursting

Schedule to auto-deliver reports to various stakeholders. You can distribute reports in different formats and customize the view for recipients.

Enterprise Mobility

Stay connected with your data anywhere, anytime with Intellicus mobile BI. You can access your dashboards & reports on any iOS and Android handheld devices.

Certified Security

Access your data safely with certified, anti-theft security. Our multiple layers of security ensure 100% data protection on all devices.

International Multilingual Support

Read your data in the language of your choice. 30+ international languages to choose from. Intellicus lets you visualize reports in your own language without any boundaries.

Analytics That Keep You Ahead

Data Science Integration

Seamless connection to R and Python Data Science engines with full access to all Data Science libraries. Intellicus with Data Science performs machine learning on your data to deliver powerful predictive and what-if analytics.

Big Data Analytics

Connectivity with all the major Big Data platforms. Intellicus can run Big Data jobs like Pig Jobs, Hive Jobs, Custom MapReduce Mahout Jobs etc. and deliver graphical analysis on complex data instantly.

Real Time Analytics

Analyze real-time data coming from multiple sources without any time lag, and monitor operations as they occur. You can view different indicators from your live streaming data and extract valuable insights to make real-time decisions smoothly.

Analytics of Things

Real time analytics of data coming from multiple devices. Intellicus helps you unlock the true potential of IoT by monitoring and analyzing this mass of data, as it gets created. .

Responsive Dashboards

360 degree responsive, actionable dashboards that let you interact with insights easily. Intellicus dashboards give you the power to visually analyze all of your data at one place and navigate into details smoothly.

Seamless Embedding

Single sign on integration with other applications. Intellicus provides seamless screen embedding as well as data integration through an extensive range of data and controller APIs. You can brand Intellicus BI with your name, logo and aesthetics.
