

Intellicus Launches Mobile Application for Anytime, Anywhere Business Insights

India, 17th August 2016: Intellicus Mobile Application Now Available on Apple App Store. Intellicus Technologies, a leading provider of Enterprise Reporting and Business Insights Platform, today announced the release of Intellicus Mobile Application on the Apple App Store. This announcement was made at the Oracle Open World, San Francisco, where the company also gave a live demonstration of this application.

Intellicus Mobile App provides interactive and personalized analytical views over the enterprise data, giving dynamic insights into the key performance indicators of business. Users can quickly relate the KPIs with detailed data readily using the drill downs. Intellicus native iOS application allows offline analysis and users can refresh the updated content, when the device is online.

On this occasion, **Rajesh Murthy, VP Engineering, Intellicus** quotes, “Intellicus Mobile Application inherits the core strength from its enterprise foundation. It provides a seamless extension to its Ad-hoc reporting and Dashboarding solutions on mobile devices, while ensuring full security during data transfers.”

Intellicus Mobile Application Now Available on Apple App Store

This mobile app can be downloaded for free from the Apple store. The users can connect it with the Intellicus Server version 5.3 or above, over SSL.

The application implements enterprise data security rules on devices seamlessly.

Click on <http://itunes.apple.com/us/app/intellicus/id465302764?mt=8> to download the app.

The company also offers this application as a white labelled option to its ISV partners. This provides different software vendors, a customizable BI platform to suit their individual requirements. Intellicus plans to add more features to this mobile application, including alerts and scheduled delivery, in the coming weeks. Intellicus is being used by more than 60% of the Fortune 500 companies. Its flexible architecture and integration framework have won major OEM relationships

with leading ISVs. The company is continuously innovating to add greater value and rich usage experience through enhancements and additions to product features.
