**Intellicus Technologies showcases its analytical power at Gartner Symposium ITxpo 2016**

**India, 20ᵗʰ December 2016:** Intellicus Technologies, a leading global provider of Business Intelligence & Analytics, participated at the Gartner Symposium – ITxpo – Goa from November 15-18, 2016.

At the symposium, Intellicus exhibited its enterprise BI platform that is digitally transforming organizations and driving a culture of growth analytics.

Speaking on the occasion, **Mr. Rajesh Murthy, VP Engineering – Intellicus Technologies**, remarked, "Business leaders are demanding data driven decision making to improve ROI. Intellicus' trusted self-service BI platform helps enterprises bring their data together and make superior business decisions."

Gartner Symposium- ITxpo is the world's most important gathering of CIOs and senior IT executives with an agenda that is designed to provide the strategies, insights and tools needed to lead the next generation of IT and achieve business outcomes.

A key highlight at the expo was Intellicus' recently launched High Speed View, that lets organizations explore their data from all dimensions in a single screen, and get a panoramic view of their business at the speed of thought. High Speed View is being rapidly adopted by most of our customers to give their business users power to customize and interact with their reports and dashboards to drill deeper in their operations.
